POWER

- 12 MVA of total power;
- Dual diesel fuel storage tanks with 48 hours of fuel autonomy without refueling;
- Tri-bus redundancy system (three power lines servicing each data hall).

COOLING

- Dual coil cold water chiller system;
- Isolated technical corridors for equipment maintenance;
- Airflow using a 1 meter raised floor;

CONNECTIVITY

- Dedicated Telecom meet me rooms;
- Carrier Neutral;

SECURITY

- 24/7 Monitoring using CCTV cameras with high-definition automatic movement detection, digital recording and image storage for more than 90 days;
- Dual authentication for access control using biometric and magnetic cards;
- 24x7 on-site monitoring and security team.

Strategic location

Due to the importance of the city of Santiago, Chile, and to meet its growing information technology demands, Ascenty has established a data center with high storage and power capacity and high redundancy, an investment fit to match the economic importance of one of the most dynamic capitals in Latin America.

About Ascenty

Ascenty is a Digital Realty and Brookfield, company and Latin America's largest data center provider, with 21 data centers in operation and/or under construction, interconnected by a dedicated fiber-optic network spanning across more than 4,500 kilometers. The company has developed and operated world-class data centers since 2010, serving some of the world's largest technology companies. In line with Ascenty's expansion project, the company received strategic investment from Brookfield, one of the largest asset managers in Brazil in the segments of infrastructure and private equity. With Digital Realty, it is part of a global network of more than 210 data centers located across North America, Europe, Latin America, Asia and Australia.
