Ascenty

A Digital Realty and Brookfield Company

JUNDIAÍ CAMPUS

Jundiaí Campus

The city of Jundiaí is known for being an important logistics and industrial hub in Brazil.
To meet the IT demands of companies interested in expanding their foothold in the region, we have built a data center campus with the latest technologies available in the market.

The campus currently has two data centers totaling 29 MW power capacity and 172,000 sq ft of space. In addition to the high quality and redundancy of the infrastructure, the data centers offer excellence in connectivity, with a dedicated fiber optic network or connection with carriers.

Rua Presbítero Plínio Alves de Souza, 757 – Medeiros, Jundiaí – SP, 13212-181.

Certifications

- Microsoft ExpressRoute

About Ascenty

Ascenty is a Digital Realty and Brookfield company and Latin America's largest data center provider, with 22 data centers in operation and/or under construction, interconnected by a dedicated fiber-optic network spanning 4,500 kilometers.

The company has developed and operated world-class data centers since 2010, serving some of the world's largest technology companies. In line with Ascenty's expansion project, the company received strategic investment from Brookfield, one of the largest asset managers in Brazil in the infrastructure and private equity segments. With Digital Realty, the company now takes on even more expertise by joining a global network of more than 260 data centers located across the globe.
