

An aerial photograph of a large industrial facility, the Sumaré Campus, featuring several large white warehouse-like buildings with grey roofs. The facility includes various industrial equipment, including large storage tanks and complex piping systems. A paved road with yellow lane markings runs alongside the buildings. The surrounding area includes green fields and a distant residential or commercial area under a cloudy sky. The Ascenty logo is overlaid in the top left corner, with decorative blue and orange lines extending across the image.

SUMARÉ CAMPUS

Sumaré Campus

Located in the Campinas Metro Area, one of the largest technology hubs in Brazil, the city of Sumaré is home to an Ascenty Data Center Campus.

The Sumaré site is strategically located along the Anhanguera Highway, and close to the Bandeirantes and Dom Pedro Highways, three of the country's most important highways, allowing for quick access to the airports and the city of São Paulo.

Rod. Anhanguera, s/n - Parque das Indústrias - Nova Veneza Sumaré - SP

Certifications

To ensure the operational continuity of your business with the quality, reliability and uptime you need, Ascenty's expertise has been evaluated, recognized and certified by the industry's leading global certification bodies.

About Ascenty

Ascenty is a Digital Realty and Brookfield company and Latin America's largest data center provider, with 22 data centers in operation and/or under construction, interconnected by a dedicated fiber-optic network spanning 4,500 kilometers.

The company has developed and operated world-class data centers since 2010, serving some of the world's largest technology companies. In line with Ascenty's expansion project, the company received strategic investment from Brookfield, one of the largest asset managers in Brazil in the infrastructure and private equity segments. With Digital Realty, the company now takes on even more expertise by joining a global network of more than 260 data centers located across the Americas.
