**CHILE** CAMPUS

# Chile Campus

Looking to meet growing IT demands, Ascenty has built a new data center in Santiago, Chile, with the power capacity, storage and capacity to match the economic relevance of one of Latin America's most dynamic cities.

The Chilean campus has 42 MW power capacity and 291,000 square meters of floor space. In addition to the high quality and redundancy of the infrastructure, the data centers offer excellence in connectivity, with a dedicated fiber optic network or connection with carriers.
