

HORTOLÂNDIA CAMPUS

Hortolândia Campus

An up-and-coming city in the Campinas Metro Area, Hortolândia has quickly become an important regional city. Hundreds of companies have migrated there, making it a fastgrowing industrial and technological hub.

The campus currently has four data centers totaling 85 MW power capacity and 602,000 sq. ft of space. And it was developed with an infrastructure prepared to offer redundancy in all its systems, including power, air conditioning and networks.

Rua Papa João Paulo II, 4 - Jd. Santa Izabel, Hortolândia - SP, 13185-252

+ information on our Data Center

CONNECTIVITY

- Carrier Neutral.
- Dedicated Telecom meet me rooms.
- Direct connection with PIX Campinas and PIX São Paulo, and with main cloud providers.

SECURITY

- 24/7 Monitoring using CCTV cameras with high-definition automatic movement detection.
- Dual authentication for access control using biometric and magnetic cards.

POWER

- Tri-bus redundancy system (three power lines servicing each data hall).
- Dual diesel fuel storage tanks with 48 hours of fuel autonomy without refueling.

COOLING

- Isolated technical corridors for equipment maintenance.
- Dual coil cold water chiller system.

One of the best cities to invest in is home to six Ascenty data centers

The city of Hortolândia is a major economic force in the São Paulo State, and has been named one of Brazil's top 100 cities to invest in.

As a result, it has been attracting more and more companies and industries looking to tap into its potential.

Ascenty built six data centers in Hortolândia to meet the local demand from this bustling city and surrounding area. They are all built on the concept of powerful and cutting-edge infrastructure, offering redundancy and scalability.

About Ascenty

Ascenty, a Digital Realty and Brookfield company, is the largest connectivity and data center service provider in Latin America, currently managing 28 data centers in operation and/or construction in Brazil, Chile and Mexico, interconnected by 5,000 km of proprietary fiber-optic network.

The company was established in 2010 and builds and operates world-class data centers serving the world's largest cloud and technology providers, as well as other customers in the finance, retail, industrial, healthcare and service industries. To support the company's expansion, Ascenty is backed by its shareholders which include Brookfield Infrastructure Partners, a Canadian asset management company and Digital Realty, the world's largest data centers provider with 290 data centers located in North America, Europe, Latin America, Asia and Australia.
